Information about Zemský stud farm and offered stallions

In this year 2018, we are offering 9 young stallions born between January and June 2015. We will be presenting young stallions, that are 3 years pasture bred.

All young colts were treated by the exact necessary number of horse groomers during the whole pasture breeding period. Their health was periodically and continuously controlled by experienced professional vets. All the measured data of their health stage are documented twice a year throughout the pasture breeding.

Stallion classification tracks their weight and growth range - moves up and down (+3 do -3) from standard (0). Also their exterior, motion mechanics – step and trot (1-10points), free jump (1-10points) and health stage (0-10points) is monitored .

Those young stallions that show qualities above standard during the first two years of breeding are pre-selected for further breeding. There is an evaluation committee that rates and recommends these young stallions that will undergo 70 days testation for warm-blooded breed secured by Zemský stud farm Pís ek s.p.o. in the Czech Republic.

Owner of the stallion that passed the 70 days testation can request the license which is granted by the relevant association. This young stallion is officially used for breeding.

All the stallions that are being offered in the auction are awaiting the completion of training and preparation for the performance test. The basic examination will take place on the 6th of June 2018 and will be available online at www.youtube.com.

You can find more detailed information about the stud farm in Tlumačov at the website below:

<http://www.hrebcinec-tlumacov.cz/>

Method of sale – english auction

All the young stallions will be sold online via english auction at www.verejnedrazby.cz. That means that the shown price is a starting price including VAT. Increasingly higher bids are accepted from the gamut of buyers. Ultimately, the price is adjusted in a direction that's unfavorable to the bidders. Each minimum bid is 5.000,- CZK. It is necessary to deposit bail in the amount of 45.000 CZK for each horse.

You can view all the stallions at Zemský stud farm Tlumačov after previous agreement.

Don't hesitate to contact me if you have any further questions
